

PMAMTi 2026

INTERNATIONAL CONFERENCE ON POWDER METALLURGY and ADDITIVE MANUFACTURING of TITANIUM

Dr. Cho-Pei Jiang

Dr. Hsu-Wei Fang

The 8th edition of the International Conference on Powder Metallurgy and Additive Manufacturing of Titanium (PMAMTi2026) will be hosted for the first time in Taiwan. This prestigious event will convene leading researchers, engineers, and industry professionals to explore advancements in the processing, design, and application of titanium and its alloys through powder metallurgy and additive manufacturing technologies.
