

2024 IC Taiwan Grand Challenge - Finalists Announcement

Team	Product / Solution	Nationality
GalaVerse USA	Advanced Generated AI Sensing Chip for New Sensor Networks	UNITED STATES
Polaris Electro-Optics	next-generation high-speed, energy efficient, small size optical data transfer transmitter photonic IC	UNITED STATES
Quinas Technology (ULTRARAM)	ULTRARAM - Revolutionary Quantum Powered Universal Memory for Future Compute and Novel AI	UNITED KINGDOM
Ranictek Inc.	Baseband chips for 5G/6G O-RAN base stations and satellite communications	TAIWAN
Voltraware Semiconductor Co. Ltd.	Efficient wireless power transfer over large airgap with positional freedom	TAIWAN

*Sorted in alphabetical order by team name (updated in November 2024)
