3.						yyyy mm	☐ yes ☐ no			☐ yes ☐ no		☐ paper ☐ online
4.						yyyy mm	☐ yes ☐ no			☐ yes ☐ no		☐ paper ☐ online
5.						yyyy mm	☐ yes ☐ no			☐ yes ☐ no		☐ paper ☐ online

Summary regarding the academic contribution of representative publication(s)	
References	※Please provide other professional or academic achievements of the applicant.

Notes:

1. Type or print required information. If more space is needed, add another sheet and mark the page numbers.
2. Representative publications shall be works published within the last five years dating from the applicant's acquiring the current professorial rank certificate. Reference publications shall be works published within the last seven years dating from the applicant's acquiring the current professorial rank certificate. Do not list works as representative works if they are published before the applicant is employed in the university.
3. All listed publications (research results or teaching materials) shall be submitted to and reviewed by the teachers' evaluation committee and should meet up with the regulations of the external review standards for the promotion or qualification of teachers. All listed publications shall not be replaced by other publications upon being submitted.
4. Please list names of the co-authors according to the original sequence.
5. Only one author among the co-authors can be listed as user of the co-authored work as a representative work. Other co-authors shall submit a co-author certificate for the applicant who is user of the work as a representative work.
6. Do these in the space for "Remarks":
   - Make a note for each SCI, EI, SSCI, A&HCI, TSSCI or THCICore publication(research results or teaching materials).
   - For each co-authored publication(research results or teaching materials), make a note to indicate its first author and second author or corresponding author.
   - For each technology report, give information of the licensing fee or honor directly related to the report.
   - For each publication in pedagogy, make a note of its circulation.
7. Please indicate the rankings and impact factors of the journal papers. State reasons for lack of related information.
8. Do not list any report that is the result of a research project.
9. If the representative work falls within the field of scholarship of teaching and learning, the "corresponding course" should be specified. The fields "Vol. (No.)" and "Journal articles 【Field】 Ranking/ number of journals/ Impact factor" may be left blank. In the "Summary regarding the academic contribution of representative publication(s)" please indicate whether the work demonstrates innovative, improved, or extended applications with concrete research (or evelopment) outcomes, and describe any significant and specific contributions to dissemination or implementation within or beyond the institution. Relevant supporting documents should be attached on a separate sheet.
