International Forum of Trans-migrant Education in Asia

We are pleased to invite you to the upcoming International Forum on [International Forum of Trans-migrant Education in Asia \(IFTEA\)](#), which will take place from March 26th to 27th, 2027.

The 1st International Forum of Trans-migrant Education in Asia aims to build an international dialogue platform that integrates academic research, educational practice, and policy exchange, responding to the increasingly diverse and complex phenomena of trans-migrant education in Asia. The forum focuses on cross-border mobility, cultural adaptation, language support, educational transition, and social integration, bringing together scholars, educators, and policy makers from Taiwan and abroad.

In response to the trends of global population mobility and deepening regional connectivity, this forum aims to facilitate knowledge integration and experience sharing through transnational comparison and transdisciplinary collaboration. By doing so, it seeks to further promote more inclusive, equitable, and sustainable educational policies and support mechanisms, opening up new horizons for the future development of cross-migrant education in Asia.

This conference is highly relevant to linguists because it foregrounds language support, immigrant language education, multilingualism, cultural adaptation, and the role of language in educational equity and social integration. It offers linguists an interdisciplinary platform to contribute insights into language learning, language policy, linguistic diversity, and the experiences of multilingual and migrant communities in Asia, particularly in the context of emerging AI technologies.

The Committee of International Forum of Trans-migrant Education in Asia 2027 invites scholars, researchers, postgraduate students and professionals to submit abstracts of original papers for presentation at the conference.
