WELCOME MESSAGE

Taiwan International Healthcare Training Center (TIHTC) stands as one of the largest training platforms in Taiwan for international health professionals. Since its inception in 2002, TIHTC has empowered over 2,300 professionals from 84 countries through advanced training in medicine and healthcare. The continuing education and hands-on training provided are essential for health professionals to deepen their clinical expertise and strengthen their capacity to address emerging health challenges.

TIHTC leads a network of leading medical teams and resources across 60 partner hospitals and medical institutions in Taiwan. Its comprehensive training programs span advanced technologies, clinical techniques, healthcare systems, and critical care management. Beyond the training, TIHTC also arranges social and cultural activities to facilitate exchanges and foster the development of a cooperative healthcare network.

As we face evolving global health challenges, the Ministry of Health and Welfare warmly invites you to join our world-class training programs. Together, we can strengthen international healthcare capacity and work toward our shared vision of a healthier world.

A handwritten signature in black ink that reads "Chung Liang Shih". The signature is written in a cursive, flowing style.

Dr. Chung-Liang Shih
Minister
Ministry of Health and Welfare
Republic of China (Taiwan)

Why is Taiwan the Best Destination for Healthcare Training?

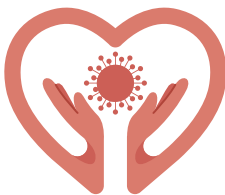

Taiwan has ranked No. 1 for 8 consecutive years (2019-2026) in the Health Care Index by country.

– *Numbeo*

Among 110 countries around the world, Taiwan ranked No. 1 for its healthcare system.

– *CEOWORLD Magazine Health Care Index (2025)*

Taiwan ranks top 3 in a COVID Performance Index of almost 100 countries for their successful handling of the coronavirus pandemic.

– *The Lowy Institute (2021)*

Taiwan is listed as the freest country in Asia in the 2025 Human Freedom Index (HFI).

– *The Cato Institute and Fraser Institute (2025)*

2025 marks the 30th anniversary of Taiwan's National Health Insurance. Its high accessibility, comprehensive population coverage, short waiting times, low cost, and national data collection systems for planning and research make it one of the best National Health Insurances in the world.

TAIWAN INTERNATIONAL HEALTHCARE TRAINING CENTER

About TIHTC

TIHTC was established in 2002 by the Ministry of Health and Welfare (MOHW), and has been administered by Taipei Hospital, MOHW since its inception. With the belief that “Give a man a fish and you feed him for a day; teach a man to fish and you feed him for a lifetime”, TIHTC integrates the top medical teams and resources in Taiwan and provides continuing professional development training for healthcare professionals around the world.

Renowned for its expertise in crafting training initiatives tailored to meet the needs of the trainees' career development, TIHTC ensures a targeted and insightful learning experience.

With the goal of contributing to the international community, the Center can now provide training to more than 100 international medical, healthcare, and administration personnel per year.

Goals

- Strive to fulfill the ideologies of “the right to health must be enjoyed without discrimination on the grounds of race, age, ethnicity or any other factor” as declared by the World Health Organization, and play a contributing role in the international community.
- Promote the visibility of Taiwan through continuous efforts in healthcare professional training, international emergency aid, and medical assistance.

Awards

International Medical Model Prize

Bronze Award of National Biotechnology & Medical Care Quality

Taiwan Sustainability Action Gold Award

SCOPE

International Healthcare Professional Training

Trained over **2,300** healthcare professionals from **84** countries

International Healthcare Cooperation and Exchange

Signed partnership and cooperation agreements in international healthcare development with **53** medical institutions in **10** countries

International Visitation and Reception

Received over **1,600** delegates from **82** countries worldwide

International Healthcare Affairs Participation

Held and participated in nearly **100** international symposiums, seminars, conferences, and webinars

International Emergency Medical Aid

Participated in **24** rescue missions in **26** countries

PARTNER HOSPITAL NETWORK

TIHTC has created a healthcare training network for international trainees in alliance with 60 hospitals throughout Taiwan. Year after year, TIHTC continues to add more advanced healthcare institutions to the network. By integrating Taiwan's top medical training resources, TIHTC is capable of delivering customized, practical, and insightful clinical training for international healthcare professionals.

2026 TRAINING SCHEDULE

TIHTC offers various professional healthcare training courses based on current international trends and emergent global healthcare issues. Our courses are jointly organized and developed by experts in the field, providing lectures, first-hand experiences shared by top specialists and trainers, and conferences and webinars for exchanges with local and international healthcare practitioners.

Training Course	Themes	Training Period	Application Deadline
Project Training	Burn Injuries Management	Aug 3 rd - Aug 8 th	July 3 rd
	Healthcare Management & National Health Insurance	Oct 12 th - Oct 23 rd	September 12 th
	Smart Healthcare & Sustainable Hospital	Nov 30 th - Dec 5 th	October 30 th
Clinical Training	Nursing, Dentistry, Surgery, Chinese Medicine, Cardiology, Orthopedics, Ophthalmology, Gastroenterology & Hepatology, Thoracic Medicine, etc.	1 week - 12 months Based on your study plan	Sep 30 th , 2026
Customized Project Training	<ul style="list-style-type: none"> • Customized project training can encompass healthcare related topics such as disease prevention strategies, National Health Insurance, healthcare management, communicable diseases, emergency care, and health information technology. • Who can apply: governmental departments, hospitals, academic institutions, medical associations, etc. • For more details, please send in request for quotation at: training@tihtc.org.tw 		

NOTICE

- Applicants will be responsible for all associated fees, including airfare, accommodation, training, visa application, administrative costs, medical insurance, potential medical expenses, and personal living expenses.
- Applicants must comply with related epidemic prevention and control measures announced by the Taiwan Centers for Disease Control.
- The TIHTC and MOHW reserve the right to make changes to training, including the date, format, course content, and admission requirements.

BURN INJURIES MANAGEMENT PROJECT TRAINING

This training is co-organized by the Taiwan Society for Burn Injuries and Wound Healing

TRAINING OVERVIEW

Effective burn care requires multidisciplinary coordination, specialized clinical protocols, and long-term rehabilitation planning. This project training introduces comprehensive burn injuries management, from acute care to recovery and system-level organization.

Drawing on Taiwan's clinical experience, the program covers burn prevention strategies, acute burn treatment, wound care principles, infection control, and rehabilitation planning. Participants will also explore how burn care services are integrated within broader emergency and trauma systems.

Application Deadline	Training Period	Language	Location
Jul 3 rd , 2026	Aug 3 rd - Aug 8 th	English	Taipei, Taiwan

Target Group

- Medical professionals who work in burn care or plastic surgery departments

LECTURE TOPICS

- Burn Injuries Introduction
- Management of Burn Injuries and Pain Control
- AI-Assisted Burn Wound Assessment
- Multidisciplinary Burn Care Team Coordination
- Medical Institution Visitation
- and more

FEES

- Lecture Tuition: Subsidized by TIHTC upon MOHW application approval
- Other Expenses: Airfare, accommodation, visa application and living expenses at participants' own expense

HEALTHCARE MANAGEMENT AND NATIONAL HEALTH INSURANCE PROJECT TRAINING

This training is co-organized by Institute of Hospital and Health Care Administration at National Yang Ming Chiao Tung University

TRAINING OVERVIEW

Taiwan's healthcare system ranked 1st in the world for 8 years in a row (Numbeo, 2026)

Taiwan is internationally acclaimed for having the most affordable and accessible National Health Insurance (NHI) system. The training covers core leadership and competitiveness in-depth and promotes modern development in the management of international healthcare affairs.

Participants will examine how Taiwan designs and operates its NHI system, manages healthcare resources, and balances cost control with quality of care. The program also introduces contemporary topics such as smart hospital development, data-driven management, and policy implementation.

Application Deadline	Training Period	Language	Location
Sep 12 th , 2026	Oct 12 th - Oct 23 rd	English	Taipei, Taiwan

Target Groups

- Healthcare professionals who carry administrative responsibilities in healthcare institutions
- Healthcare professionals who work in government health agencies

LECTURE TOPICS

- National Health Insurance (NHI)
- Health Systems
- Smart Healthcare
- Hospital Management
- Long-Term Care
- Primary Care & Rural Health
- Hospitals and Health Institution Visitation
- and more

FEES

- Lecture Tuition: Subsidized by TIHTC upon MOHW application approval
- Other Expenses: Airfare, accommodation, visa application and living expenses at participants' own expense

SMART HEALTHCARE AND SUSTAINABLE HOSPITAL PROJECT TRAINING

TRAINING OVERVIEW

As healthcare systems worldwide face demographic change, climate challenges, and digital transformation, smart and sustainable hospitals have become a global priority. This project training focuses on digital innovation and sustainability in healthcare, integrating technology, management, and ESG principles.

Participants will learn how Taiwan promotes smart healthcare solutions—such as health information systems, digital workflows, and data integration—while advancing sustainable hospital operations, including energy efficiency, green procurement, and environmental management.

Apart from the lectures, participants will have the chance to visit the 2026 Healthcare+ Expo Taiwan. From groundbreaking medical advancements to state-of-the-art technology products and digital healthcare solutions, the Expo offers a dazzling showcase of Biotech, Medtech, and Healthtech wonders in APAC.

Application Deadline	Training Period	Language	Location
Oct 30 th , 2026	Nov 30 th - Dec 5 th	English	Taipei, Taiwan

Target Groups

- Healthcare professionals who carry administrative responsibilities in healthcare institutions
- Healthcare professionals who work in government health agencies

LECTURE TOPICS

- Smart Healthcare Technologies
- Hospital Digital Transformation
- Sustainable Hospital Management and ESG Practices
- Green Healthcare Initiatives and Resource Efficiency
- Net-Zero Emissions for Healthcare Industries
- 2026 Healthcare+ Expo Taiwan (visitation)

FEES

- Lecture Tuition: Subsidized by TIHTC upon MOHW application approval
- Other Expenses: Airfare, accommodation, visa application and living expenses at participants' own expense

PROJECT TRAINING APPLICATION PROCEDURE

TIHTC encourages early applications and requires all documentation to be complete before submission. Applications must be submitted according to the deadline for each project training.

1 Supporting documents preparation (Please refer to the next page)

2 Fill out the application form and upload supporting documents

- In case of missing documents, the applicant is required to submit them within 2 weeks of receiving notice, otherwise the application will be considered invalid and may be rejected.

3 Application review

- Application reviews are conducted jointly by TIHTC and the Ministry of Health and Welfare. Other supplementary documents may be requested if needed.

4 Acceptance

- Upon receiving the final decision of the application from the MOHW, TIHTC will notify applicants via email.

5 Visa application

• List for Visa-Exempt Entry, Landing Visa and eVisa:

You may benefit from these visas if you possess one of the nationalities in the list.

<https://www.boca.gov.tw/lp-149-2.html>

• Visa Application:

You will need to apply for a visa if you don't qualify for visa exemption.

https://visawebapp.boca.gov.tw/BOCA_EVISA

For further assistance, please contact the Taiwan Embassies or Missions in your country.

6 Before departure

- Provide your visa & flight details to TIHTC.
- An international medical insurance covering your entire training period is strongly recommended.
- For inquiries, contact: training@tihtc.org.tw

PROJECT TRAINING SUPPORTING DOCUMENTS

① Resume or Curriculum Vitae

② A scanned copy of your passport

- According to immigration regulations, your passport must be valid for at least 6 months beyond the end of your training.

③ Medical reports

- Medical reports should be completed no earlier than **3 months** before the project training start date. TIHTC will inform you when and what items are required, including:
 - ▶ **Chest X-ray for pulmonary tuberculosis**
 - ▶ **Hepatitis B status**
 - ▶ **Serological test for syphilis**
 - ▶ **Certificate or proof of positive measles antibody or measles vaccination***
 - ▶ **Certificate or proof of positive rubella antibody or rubella vaccination***
 - ▶ **Other health reports according to current regulations**
- *The measles and rubella vaccine should be administered within the past 15 years**

④ An ID photo

- Two-inch ID color photo with white background, and at least 1062 x 826 pixels (taken within 6 months)

⑤ One or more letters of recommendation

- Addressed specifically to the applied project training
- Bears the referee's signature
- Issued within the 6 months preceding the intended training start date, clearly stating the issue date

⑥ A scanned copy of a diploma or degree relevant to the applied field

⑦ Valid English certificate

- Valid English proficiency certification or a self-introductory video in English (3-5 minutes)

⑧ Others

- Copies of any other licenses or certifications relevant to the training program applied

CLINICAL TRAINING

TIHTC provides professional clinical training programs for physicians, nurses, and medical technicians. During the training, participants will have the opportunity to observe instructors and the medical environment while learning advanced healthcare management approaches in Taiwan.

Clinical Specialties

Anesthesiology	Laboratory Medicine	Pathology
Cardiology	Microsurgery	Pediatrics
Cardiovascular Surgery	Nephrology	Pharmacy
Dentistry	Neurology	Plastic Surgery
Dermatology	Neurosurgery	Radiation Oncology
Dermatopathology	Nursing	Radiology
Emergency Medicine	Nutrition	Rehabilitation
Endocrinology & Metabolism	Obstetrics & Gynecology	Thoracic Medicine
Family Medicine	Oncology	Thoracic Surgery
Gastroenterology & Hepatology	Ophthalmology	Toxicology
General Surgery	Oral Surgery	Traditional Chinese Medicine
Hematology	Urology	*Others
Immunology & Rheumatology	Orthopedics	
Infection Control	Otorhinolaryngology	
Internal Medicine	Pain Medicine	

[Alumni Testimonials](#)

Eligibility

- Hold a valid medical or nursing license, relevant degree, or certification
- Have at least 1 year of medical practice experience in the related field

Application Deadlines

- Training less than 3 months: MUST apply 3 months before the intended training start date
- Training more than 3 months: MUST apply 5 months before the intended training start date

Training Policies and Responsibilities

- Training duration can range from 1 week to 1 year according to applicants' needs.
- **No clinical practice is allowed for training under 3 months.**
- **After 3 months of clinical training at the same hospital, the mentor will assess trainee's ability and may allow trainee to perform some practice under supervision.**
- Applicants will be responsible for all associated fees, including airfare, accommodation, training, visa application, administrative costs, medical insurance, potential medical expenses, and living expenses.
- Applicants must comply with Taiwan Centers for Disease Control regulations.
- The TIHTC and MOHW reserve the right to modify training dates, format, course content, and admission requirements.

CLINICAL TRAINING APPLICATION PROCEDURE

TIHTC encourages early applications and requires all documentation to be complete before submission.

For training less than 3 months: MUST apply 3 months prior to the intended training start date

For training more than 3 months: MUST apply 5 months prior to the intended training start date

1 Fill in the Pre-Application Inquiry form

- The Study Plan template is available for download at <https://www.tihtc.org.tw/downloads>

2 Wait for initial review

- The team will review and begin with the preliminary training hospital arrangement upon receiving your inquiry form. We will respond within 4 weeks with the link to the official application form.

3 Fill out the official application form and upload supporting documents

- In case of missing documents, the applicant is required to submit them within 2 weeks of receiving notice, otherwise the application will be considered invalid and may be rejected.

4 Application review

- For Training arrangement, TIHTC will match the applicants with the training hospital(s) according to the applicant's study plan.
- Application reviews are conducted jointly by TIHTC, training hospitals, and the Ministry of Health and Welfare. Additional documents may be requested at this stage.

5 Acceptance

- TIHTC will notify applicants via email and send the official acceptance letter upon receiving MOHW approval.

6 Visa application

- **Please apply for a visitor or resident visa according to the duration of your training.**

<https://www.boca.gov.tw/cp-157-4783-f6cb2-2.html>

<https://www.boca.gov.tw/cp-165-1878-1ff5e-2.html>

- **Visa application:**

https://visawebapp.boca.gov.tw/BOCA_EVISA

Please contact the Taiwan Embassies and Missions in your country for further assistance.

- An international medical insurance covering your entire training period is required

10 Valid English certificate

- Valid English proficiency certification or a self-introductory video in English (3-5 minutes)

11 Others

- Copies of any other licenses or certifications relevant to the training applied

CLINICAL TRAINING AGREEMENT

The clinical training you are applying for is subject to the following guidelines by the MOHW. Please read it in full and check the box to confirm your agreement.

Application Guidelines for Teaching Hospitals Accepting Foreign Medical Personnel for Clinical Training and Teaching

MOHW Announcement No.1071661004 on March 7th, 2018
MOHW Announcement No.1071663551 Amendment on June 8th, 2018
MOHW Announcement No.1101660751 Amendment on February 22nd, 2021

A

The Ministry of Health and Welfare (hereinafter referred to as the Ministry), for the purposes of enhancing international cooperation, promoting medical communication and ensuring patient safety, as well as enabling foreign medical personnel to engage in clinical training or clinical teaching in Taiwan's hospitals. The guideline serves as the basis for the application of visas at the Taiwan embassies, representative offices, offices, or any other agencies authorized by the Ministry of Foreign Affairs.

B

The "foreign medical personnel" referred in these points are foreigners who have obtained the qualifications of foreign medical personnel.

C

Hospitals receiving foreign medical personnel for clinical training should be an accredited hospital for such clinical training (hereinafter referred to as teaching hospitals). The name, nationality, and below documentation are required to be submitted for approval by the Ministry at least 1 month before the date of training (for those whose training is over 3 months, then the application should be submitted 3 months before the date of training):

- A photocopy of passport or other identification documents.
- A photocopy of foreign medical personnel certificate, medical specialist certificate or other qualification certificates (Chinese or English translated versions accepted).
- Proof of work experience in medical related fields for more than 1 year that is issued within 6 months prior to the application date (Chinese or English translated versions accepted).
- The clinical training plan content should include the purpose of clinical training, date, division, medical instructor, and clinical training program.
- Those with training period longer than 3 months should submit health examination reports, such as chest X-ray for pulmonary tuberculosis, serological test for syphilis, proof of positive measles and rubella antibody or measles and rubella vaccination.

CLINICAL TRAINING AGREEMENT

D

The duration for foreign medical personnel receiving training at the teaching hospital is limited to 2 years. However, with clear reasons and attaching a plan for changing the clinical training, those who applied and permitted by the Ministry may extend their clinical training for a period not exceeding 2 years.

E

For the teaching hospitals accepting foreign medical personnel for clinical training, if clinical practice is involved, medical personnel of that training category should be assigned with an on-site instructor. Trainees are not allowed to perform invasive medical practices independently. Furthermore, those who are not engaged in clinical training for longer than 3 months may not perform clinical practice.

F

The Ministry may approve, partially approve or deny applications submitted by the teaching hospitals in consideration of the hospital training capacity, medical personnel category, number of applicants, and training project period.

G

Teaching hospitals organizing clinical training for foreign medical personnel and clinical teaching by foreign medical personnel in Taiwan should abide the guidelines stated and relevant medical regulations. Any violation of the provisions or matters that are deemed unqualified, the Ministry may terminate its approval at any time and notify the relevant authorities. For hospitals failing to fulfill its management obligations, the Ministry may suspend the acceptance of its related applications until the improvements are implemented.

- I have read the terms and conditions in full and hereby agree to follow Application Guidelines for Teaching Hospitals Accepting Foreign Medical Personnel for Clinical Training and Teaching by the MOHW during my period of stay in Taiwan. Violations of these rules will result in consequences appropriated via the MOHW and TIHTC.

TIHTC MILESTONES

2002

Established to offer training and exchange programs for healthcare professionals around the world

First physician trainee from Mongolia attended and completed a 5-month clinical training program

2004

Tsunami in South Asia: dispatched international emergency rescue team to Phuket Island, Thailand and Sri Lanka

2005

First exchange visit to Mongolia: visited the Ministry of Health to discuss healthcare topics, became sister hospitals with Second General Hospital of Mongolia, donated medical equipment, and organized ACLS training

2006

Provided free traditional Chinese medicine clinic in Mongolia

Donated medical equipment to various Mongolian healthcare institutions in cooperation with GMISS and held seminars to share Taiwan's medical experience

TIHTC MILESTONES

2007

Signed a cooperation agreement with Asian Development Bank and Mongolian Ministry of Health to train healthcare professionals of Mongolia

Signed an MOU with Luxembourg Development Cooperation Agency and Shastin Central Hospital of Mongolia to conduct continuing professional development training for Mongolian cardiologists

2008

Conducted training for 20 Saudi Arabian physicians and public health officials as per the “20th Taiwan-Saudi Arabia Cooperation Conference”

Signed an MOU with Majuro Hospital of the Marshall Islands

2009

Became sister hospitals with PKU Muhammadiyah Hospital of Yogyakarta, Indonesia

Became sister hospitals with Lerouj Kitlang Kabua Memorial Hospital of the Marshall Islands

2010
