

Webinar: EMBO Courses & Workshops

By
Maria Polychronidou, European Molecular Biology Organization
Dennis Kappei, National University of Singapore

17 March 2026 15:00 (CST/SGT)

The Courses & Workshops Programme stimulates exchanges of the latest scientific knowledge and offers training in new techniques. The programme funds workshops, practical courses and lectures courses. It also assists organizers in promoting the events and creating webpages with a registration and abstract submission system. Furthermore, it provides lecture, travel, childcare, and accessibility grants.

In this session you will learn about:

- The benefits offered by the programme
- Why and how to apply
- Elements of a competitive application
- How applications are evaluated and considered for funding
