

## Call for Posters

### 21st Asian Internet Engineering Conference (AINTec) 2026 In-Cooperation with ACM SIGCOMM

**Dates:** December 1-3, 2026

**Location:** GIS NTU Convention Center, Taipei, Taiwan

**Website:** <https://interlab.ait.ac.th/aintec2026>

The 21st Asian Internet Engineering Conference (AINTec 2026), an ACM SIGCOMM sponsored conference, welcomes students and young researchers to submit posters presenting promising early-stage work on novel Internet technologies and applications.

The poster session provides an excellent opportunity to present new or ongoing research, receive feedback, and interact directly with leading researchers and practitioners from academia and industry.

#### Topics of Interest

We welcome poster submissions on all topics aligned with the AINTec 2026 main conference topics of interest:

- Networking technologies for developing regions
- Disaster networking, including experience with earthquakes and tsunamis
- Internet measurement, analysis, and modelling
- Experiences with large-scale operational systems and networks
- Networking challenges, solutions, and experiences with LEO Satellite Networks
- Network measurements, traffic trends, and application usages related to emerging social and technological issues
- IoT, sensor networking, and applications
- Wireless and mobile networks
- Distributed systems, including edge and cloud computing
- Next-generation 5G/6G mobile networks and applications
- Location management and positioning
- CDNs, content distribution, and caching
- Mobile video, AR/VR, multimedia systems and applications
- Cloud computing and services
- Vehicular communications and applications
- Network operations and management
- Social networks
- Network security and privacy
- Future Internet architectures and technologies
- AI for computing and networking
- Networking for AI
- Agentic AI Communication
- Regulations and standards for Internet technologies
- Quantum networking

#### Submission Guidelines:

- Authors are invited to submit an **abstract** describing research work for which at least some preliminary results are available. The work does not need to be completed at the time of submission.
- The abstract should be no longer than **two double-column pages**, including figures and tables but excluding references, and should follow the ACM conference proceedings format.
- Please note that **poster submissions are not anonymous**, and author names and affiliations should be included in the submission.
- **ACM template and submission guidelines:**  
<https://www.acm.org/publications/authors/submissions>

#### Poster Submission Link:

<https://cfp.wide.ad.jp/conferences/aintec2026poster/>

#### Important Dates – Posters Only

- Poster Submission Deadline: **September 28, 2026 (AoE)**
- Acceptance Notification: **October 9, 2026**

#### Presentation at AINTEC 2026:

- At least one author of each accepted poster must register for the conference and present the poster.
- Accepted posters will be exhibited in the conference break areas. Authors will also give a **3-minute lightning talk** introducing their work and will have an opportunity to present their poster and/or demonstrate their work during the poster session.
- To protect authors' ability to subsequently submit their work as a full paper elsewhere, poster abstracts **will not be published in the conference proceedings**. Only the poster title and author names will be listed on the conference website.

#### Travel Support:

- Limited funding is available to support travel for students and young researchers presenting papers or posters at AINTEC 2026.
- Further information about the travel grant application will be announced soon.
